Epistum Cloud Launch Event

Epistum Cloud, the first e-Learning Management System in Macedonia, will be showcased in front of carefully selected companies on Wednesday, the 23th of September at the Innovation Center of Macedonian Telecom. At the event, iVote's experts will present how Epistum Cloud can **reduce costs and time for staff training and how can improve capacity for work**. Representatives from several different industries will attend the presentation and will be better acquaint with the new cloud solution at the market. This system for interactive education and distance learning is intended for advanced companies. iVote, the company that has created Epistum LMS and Macedonian Telecom, the provider of Cloud infrastructure, will celebrate their mutual collaboration and partnership with cocktail party at the end of the presentation.

"This is a great opportunity for all companies that have forward thinking and are eager to embrace ICT, to see how can significantly reduce expenses and time for staff training, testing and evaluating. The system is designed to allow user access from anywhere, regardless of their physical location. It stores all education materials, interactive courses, web conferences and reports in one single consolidated place." - Said Mr. Tomislav Zografski – CEO of iVote.

Through the EPISTUM Cloud, HR managers or trainers can keep full records of the development of each employee or student and can measure their progress. Corrective actions can be easily conducted based on the detailed reports on the results of every respondent.

Having interactive tools and peer-to-peer communication module, Epistum Cloud makes learning more entertaining and engaging.

All guests at the event "E-education with EPISTUM Cloud" will be granted with vouchers for 30 day free trial of Epistum Cloud.

About iVote

iVote is an European software development company and manufacturer of brand LMS product EPISTUM and DEMOKRA Election Management Platform. The Company specializes in developing highly adaptable, flexible, easy scalable software solutions, aimed to serve the wide public. EPISTUM Learning Management System is an advanced e-Learning and e-Testing on-line platform that manages and delivers training courses.
