

## PRESS RELEASE

**Date 09.06.2014**

### **Demokra Technology Drives the Elections in Kosovo 2014**

Central Election Commission of Kosovo once again chose iVote as a trustworthy partner to deliver election management platform for the parliamentary elections. The elections were held on 8<sup>th</sup> of June 2014 and from 2374 polling stations all across the country, results have been processed and published. Transparency and credibility of the elections is retained with live transmission of the election results right after the counting of the votes. Count and result center of Kosovo is using Demokra technology for organizing and processing the election activities. Election night results web site accompanied with mobile applications has showed preliminary live results at the same night after polling stations were closed. Responsive design of the site allows better user involvement and reach to tablet and mobile audience. Interactive map with all election units of the country illustrate voter's turnout and results by region and time. Simulation module for allocation of mandates will help visualize the predictions of the results to the real outcome.

“CEC of Kosovo as a trusted partner of iVote again is using iVote Demokra election technology for the parliamentary elections. We have enabled secure, accessible, transparent and auditable elections to the citizens, electoral bodies and political parties. It is our mission to introduce advance technology while we are continually innovating on a behalf of our customer to enable excellent user experience”, said Tomislav Zografski, Managing Director of iVote.

Besides ENR website, Demokra enables full elections life cycle management of all phases of electoral processes. Starting from voters list preparation, counting centre operations, until official results publication and reports generation, iVote Demokra is fully customizable software solution tailored according specific needs and demands of Central elections commissions from many states that been served by iVote Demokra.
