iVote Rolls Out EPISTUM Cloud LMS in Partnership with Macedonian Telecom

iVote with its state of the art, innovative, advanced solution for distant learning – EPISTUM, became part of the Telecom Cloud program. Macedonian Telecom (part of Deutsche Telecom) with this program provides superior technological infrastructure and extensive experience to all companies engaged in offering IT services and application solutions. Only proactive, forward-thinking companies ready to embrace new business models and challenges became “**T**”-partners and expand their scope of work with originative products and services.

“Gaining full support from Macedonian Telecom as our trusted partner will broaden our business portfolio and customer base. EPISTUM learning management system became more robust and scalable due to the access to the top cloud infrastructure. There are several different licenses offered to the companies. Each company depending on its needs and demands can choose the appropriate one.”- Mr. Tomislav Zografski, CEO of iVote.

EPISTUM LMS Cloud is a fully functional interactive platform adapted to the necessities of businesses to train and evaluate their employees. The interactive nature of the system enhanced with on line courses, video and audio materials, tests, quizzes, web conference modules, peer-to-peer communication tools, make the learning process interesting and effective to the users. **EPISTUM LMS Cloud is projected to serve miscellaneous industries and company profiles such as banks, insurance companies, educational and public institutions, large and medium-sized enterprises.**

About iVote

iVote is a company specializing in e-learning and election modernization technologies. iVote's EPISTUM Learning Management System is an advanced e-Learning and e-Testing on-line platform that manages and delivers training courses. Large number of users can access the system simultaneously, any time and from any place they want, regardless of their location.
