

## PRESS RELEASE

**Date 16.01.2015**

### **iVote Skopje Elevates Early Mayoral Elections in Kosovo**

iVote, a long-term partner with the Central Election Commission of Kosovo will deliver integrated management platform and Election DataCenter team for the early mayoral elections in Municipality of Gracanice on 18-th of January 2015. Bolstered by the support and knowledge from the key organizational experts from the iVote Foundation, not-for-profit and non-political organization, iVote technologically will support another election process in Kosovo.

“Support from the iVote Foundation significantly improves our processes in delivering secure election system that strengthen democratic progression and capacities of civil society”- said Mr. Tomislav Zografski, CEO of iVote. “All processes which will be performed by our experienced Election DataCenter Team will improve election services in Republic of Kosovo”.

Kosovo Count and Results Center will use Demokra election management platform from iVote to process ballots from 27 polling station and 10 polling centers. The system contains several modules tailored according CEC needs such as: data entry module, module for scanning voters list, verification module, validation module, tracking module, results tabulation and presentation module and information security module.
